PROFESSIONAL SUMMARY

Final-year Bachelor of Computer Science (Hons.) Netcentric Computing student at Universiti Teknologi MARA (UiTM), currently completing an ICT internship at Politeknik Sultan Idris Shah (PSIS). Practical exposure to desktop and printer support, LAN cable testing, network connectivity troubleshooting, ICT asset records, and website content preparation. Developed and deployed a Laravel, Vue.js and MySQL web application. Seeking entry-level opportunities in IT support, networking, web development or IT administration. Availability from 14 December 2026 (negotiable if relocation is required).

TECHNICAL SKILLS

IT Support & Networking: PC and printer troubleshooting, Ethernet connectivity checks, LAN cable testing, RJ45 crimping, TCP/IP fundamentals, DHCP, VLAN fundamentals.

Programming & Web Development: PHP, Laravel, Vue.js, JavaScript, HTML, CSS, Flutter, Java, C++

System Analysis & Design: Problem identification, requirements analysis, use case diagrams, flowcharts, entity relationship diagrams (ERD), user interface, system testing, technical documentation.

Databases & Tools: MySQL, Firebase, Git, Visual Studio Code, Android Studio, Laragon, Canva

Security & Analysis Tools: Wireshark, Nmap, Kali Linux, DVWA, FTK Imager, Volatility, Kibana (academic/lab exposure)

Productivity: Microsoft Excel, Word, PowerPoint

WORK EXPERIENCE

ICT INTERN | Politeknik Sultan Idris Shah (PSIS), Selangor | Sep 2026 – Dec 2026

- Assisted ICT personnel with troubleshooting computer workstation, printer issues, and Ethernet connectivity across offices and computer laboratories.
- Tested network cables and connectivity paths using cable testers. Assisted with RJ45 cable preparation and workstation network checks.
- Supported printer setup and maintenance including driver installation, print configuration, test printing and toner checks.
- Updated ICT asset inventory records including device details, serial numbers, registration identifiers and assigned personnel.
- Prepared departmental staff directories and organizational charts using Canva for integration into the institution's WordPress website.
- Assisted with computer laboratory setup and observed wireless access point installation and network infrastructure checks.

EDUCATION

UNIVERSITI TEKNOLOGI MARA (UiTM) SHAH ALAM **Oct 2023 - Present**
Bachelor of Computer Science (Hons.) Netcentric Computing | CGPA: 3.11

SELECTED PROJECTS

AbilityScan: A Rule-Based Job Matching Web Application with QR Code Digital Portfolio for Persons with Disabilities | Final Year Project

- Identified the recruitment problem, analyzed requirements, and created use case diagram, flowcharts, ERD and a system prototype.
- Developed and tested a web application using Laravel, Vue.js and MySQL, featuring rule-based job matching and QR code digital portfolios.
- Prepared technical documentation covering system requirements, design, implementation and testing. Deployed the application on an Ubuntu server using Nginx.

Internship Finding System | Group Project

- Contributed to the development of a web application internship management system using Laravel and MySQL, supporting students, companies and administrators.
- Collaborated on a group project that included a Flutter mobile application exclusively for student access.

DVWA Vulnerability Assessment | Academic Security Lab

- Performed authorized testing in a controlled DVWA lab, examining SQL injection and cross-site scripting (XSS) vulnerabilities and related mitigations.

CERTIFICATIONS

- Huawei ICT Academy, HCIA-Cloud Computing V5.5 Course — August 2025
- Huawei ICT Academy, HCIA-Cloud Service V3.5 Course — June 2026
- Huawei ICT Academy, HCIA -Big Data V3.5 Course — June 2026
- Cisco Networking Academy, Cyber Threat Management — June 2026
- Cisco Networking Academy, IoT & Digital Transformation — May 2025

ACHIEVEMENTS & ACTIVITIES

- Dean’s List Award – Semester 5, Universiti Teknologi MARA (2026)
- Dean’s List Award – Semester 6, Universiti Teknologi MARA (2026)
- Participant – Intervarsity Cyber Forensic Challenge (2025)
- Participant – Operation 0xCYNX CTF (2025)
- Participant – Road to WhiteHat 5.0 Workshop, UiTM (2024)
